

I feel that to disband KLove from the air would be a travesty to our community. Many people in this city come to know the Lord through this radio station. It is the only alternative to the garbage that is played on secular stations. MY CHILDREN love to listen to KLove. In fact, they get extremely upset if they can't find your station when we go out of town. I don't have to worry about what is being taught or hearing nasty commercials about companies who support abortion, which people pay for air time to talk about on those other stations. It brings me peace and comfort and a time of praise and worship when I can't be in church; it just brings me and my family closer to the Lord. And to hear the stories of how KLove has helped people not just in our own community but around the world touches my heart. We live in a state that is so anti-christ as it is that WE NEED KLove to help support and back up those who are being faithful to our Father. Taking KLove away from us would be like ripping out my heart. I don't think I could bear it.
